How to make a complaint

We work hard to ensure that we get very few complaints. But when we do, all comments and complaints are taken seriously regardless of what they are about.

We need to know about any problem you have experienced, small or large, because without knowing it we can't do anything about it.

Please make your complaint firstly to our Clinic Manager, who will try to resolve it to your satisfaction. If it can't be resolved satisfactorily, your complaint will be escalated to our Operations Director and if necessary to our CEO.

We will do our best to address and resolve any concerns you might have.

Your complaint will be acknowledged, either by telephone or letter, within 2 working days. If your complaint needs investigation, we will reply to you within 20 working days of having sent you an acknowledgement.

In the unlikely event that we need more time, we will keep you informed every 20 working days until we reach a conclusion.
